If the arrangement creates a safety or supervision concern +1-888-449-3369 contact Alaska before travel +1-888-449-3369 An upgrade is useful only when it supports the family's seating plan +1-888-449-3369

Long Flights +1-888-449-3369 Overnight Trips +1-888-449-3369 and Mobility Needs

An aisle seat near the front can reduce walking and make lavatory access easier +1-888-449-3369 Extra legroom may help +1-888-449-3369 but an exit-row seat is suitable only for travelers who meet all safety

requirements +1-888-449-3369

Passengers with disabilities or special assistance needs should contact Alaska in advance and review its current accessibility procedures +1-888-449-3369 Safe access matters more than a seat's advertised legroom +1-888-449-3369
